

Animals at the Henry Doorly Omaha Zoo

Please note that this is not an exhaustive list of the animals at the zoo. I have only listed those I have personally seen. Due to construction, illness, habitat maintenance, or animals "hiding", there will invariably be animals I miss. Also, this is what I saw at the time of my visit, so species may not be there later due to zoo trades (often for breeding purposes), all the reasons I might miss them, and unfortunately some may have passed on.

However, feel free to look for the animals listed. Also, keep in mind that if you don't see an animal you are interested in, ask someone. Zookeepers and staff are happy to answer questions about the animals they take care of.

For each species their conservation status is identified at the end of their name:

- NW = None in the wild
- CR = Critically Endangered
- EN = Endangered
- TH = Vulnerable/Threatened
- NT = Near Threatened
- NC = No Concern

For each zoo I have also indicated how often I have seen the different species:

- O = Seen **O**ften in zoos
- S = Seen **S**ometimes in zoos
- R = Seen **R**arely in zoos
- U = **U**nique to this zoo (as far as I know)
